

Hampshire Clinic

Introduction

Consultants are critical to each Circle Health Group hospital. However, in common with other private healthcare operators and in most instances, Circle Health Group does not employ these consultants. Instead, most consultants working in our hospitals are self-employed practitioners who see and treat patients at our hospitals under the terms of our “Practising Privileges” policy.

In 2014, the Competition and Markets Authority issued an Order (the “CMA Order”) regulating the relationships between private hospital groups and consultants who have Practising Privileges or treat private patients or refer them for tests at group facilities (“Referring Clinicians”).

In accordance with the CMA Order, hospital operators are prohibited from entering into any incentive schemes that are designed to encourage Referring Clinicians to refer private patients to, or treat private patients at, their facilities. Circle Health Group does not operate any such schemes. The Order also requires hospital operators to disclose information about certain arrangements they have with Referring Clinicians, including: ownership interests held by Referring Clinicians in the hospital operator or in equipment used in the hospital; the provision of certain “high value” services to Referring Clinicians; the availability of “low value” basic amenities for Referring Clinicians; and any remuneration for services provided by Referring Clinicians to the hospital. Set out below is information about the arrangements we have with Referring Clinicians at our hospital.

Higher Value Services

We charge our Referring Clinicians £15 per hour for using consulting rooms at our hospital and £15 per hour (plus VAT) for using our medical secretarial services, except in relation to NHS patients.

We charge our Referring Clinicians £22.20 per square metre (per month) for using space for their own medical secretaries. This fee is inclusive of phone calls and postage charges.

Lower Value Services

We provide a number of support services to our Referring Clinicians, for which we do not make a charge. Further details regarding these arrangements are provided on our [corporate webpages](#).
